LAX is in the process of setting DBE goals for DOT federally-funded projects for federal fiscal years 2017, 2018, and 2019. The goal period will commence on October 1, 2017 and end on September 30, 2019.

DBE goals will be set for federally funded construction and professional service projects anticipated for the three-year period. Please note that the DBE goal applies only to federally funded construction and professional services projects. A separate three-year goal is set for airport concessions activity.

Interested parties are invited to attend a stakeholder meeting to review the proposed goal and methodology and to provide any information that may assist in the development of the final DBE goal for LAX.
