DRINKS L.A.

III FORKS STEAKHOUSE

LUCKY FISH

The main access to level 5 is located at the new featured 'Time Tower' **1** that houses a pair of elevators. In addition to the elevators, two escalators and a staircase wrap around the Time Tower structure. The restaurants at this level will offer a dining experience that simply does not currently exist at TBIT or LAX for that matter. In addition to fine dining options, there is an interior terrace that overlooks the Pavilion and will have a great view of the electronic media displays. Two airline lounges **2** in the new facility will also be located on this level.
