

LAX

# Asset Naming Standards

## Los Angeles International Airport

Prepared by  
FMUG Asset Management Division  
Last Revised Sep 2018

## Section Contents

1.	Policy.....	1
2.	Roles and Responsibilities.....	1
3.	Processes and Procedures.....	1
3.1	Asset Naming Standards for New Assets.....	1
4.	History .....	11

## 1. POLICY

Los Angeles World Airports (LAWA) will establish and maintain a consistent standard for naming its assets in the Facility Management System (Maximo).

## 2. ROLES AND RESPONSIBILITIES

Asset Management Division (AMD) – Division responsible for administering the Maximo system and maintaining business rules and processes.

Planning and Development Group (PDG) – PDG and their contractors and consultants use this convention to name assets.

Commercial Development Group (CDG) – CDG will use this policy to identify assets that are being acquired by LAWA.

## 3. PROCESSES AND PROCEDURES

### 3.1 Asset Naming Standards for New Assets

The asset name will be developed using the following standards except for electrical and conveyance assets:

- The asset alphabetic code is a three-character string as defined in Table 1.2
- The character string will be followed by a four-digit unique number.
- The asset name will be entered in the Maximo Legacy ID/Asset Name field of new assets.
- Example for AHU:

**AHU0001**

Asset Code for Air Handling Unit from Data Dictionary and four-digit unique number

- For electrical assets, in addition to the three-letter code and a four-digit number, the following Emergency, Type, and Serving qualifier code will be added after the asset name.
  - E – Emergency Power Equipment
  - Type
    - B – Distribution 480Y/277V
    - P – Distribution 208Y/120V
    - H – Branch Circuit Panel 480Y/277V
    - L – Branch Circuit Panel 208Y/120V
  - System Served
    - G – Ground Power Aircraft Power
    - T – Transportation Equipment Power

- A – Precondition Air Power
  - C – Concession Power
  - L – Lighting
  - IT – IT Equipment Power
  - M – Mechanical Equipment Power
  - P – General Power
  - Q – Baggage Handling System
  - S – Life Safety
- Example for Emergency Power 480Y/277V Distribution Panel serving a ground power aircraft  
Table 1.1 shows additional examples.

## EDP0001-EBG

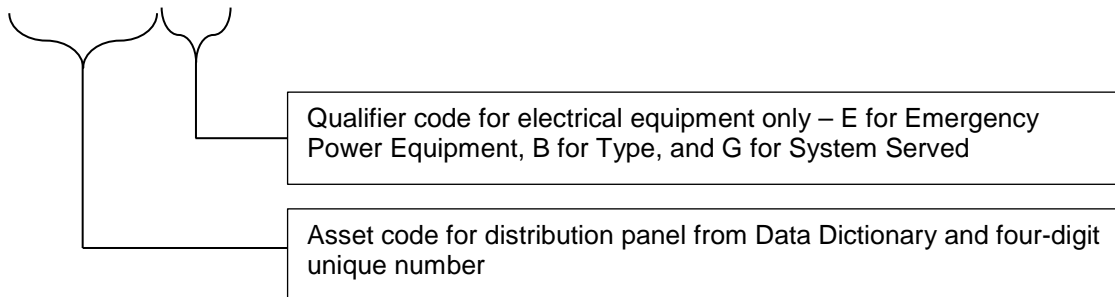

Table 1.1: Electrical Asset Naming examples

Component Type	Component ID	[ Optional Electrical ]			Asset Name string:	Type	Description
		Emergency	Type	Serving			
EDP	5001	- E	P	G	EDP5001-EPG	B	Distribution 480Y/277V
ATU	1015	-			ATU1015	P	Distribution 208Y/120V
EDP	3017	-	B	Q	EDP3017-BQ	H	Branch Circuit Panel 480Y/277V
EDP	0008	-	P	L	EDP0008-PL	L	Branch Circuit Panel 208Y/120V
EDP	1001	- E	H	S	EDP1001-EHS		
DWP	1002	-			DWP1002		
CDB	0030	-			CDB0030		
DWP	0201	- E	H	T	DWP0201-EHT		
EDM	2005	-	L	C	EDM2005-LC		
AHU	4001	-			AHU4001		
FCU	0202	-			FCU0202		
AHU	5098	-			AHU5098		
MSG	1023	-	B	T	MSG1023-BT		
HTT	0011	-			HTT0011		
VAV	1020	-			VAV1020		

Serving	Description
G	Ground Power_Aircraft Power
T	Transportation Equipment Power
A	Precondition Air Power
C	Concession Power
L	Lighting
I	IT Equipment Power
M	Mechanical Equipment Power
P	General Power
Q	Baggage Handling System
S	Life Safety

- For all conveyance assets such as elevators, escalators, and moving walkways, the PDG/CDG project manager and/or contractor shall coordinate with the AMD to establish asset names. The AMD can be reached by email at [fm@lawa.org](mailto:fm@lawa.org).

# ASSET NAMING STANDARDS

LAWA AMD uses the Uniformat standard for classifying assets, which is listed in table 1.2 along with asset abbreviations.

Table 1.2 : Uniformat Code and 3 Letter Asset Alphabetic Code

Uniformat Code	Asset Description	Asset Code	Uniformat Code	Asset Description	Asset Code
B20203001	Exterior Storefronts	ESF	B20506001	Exterior Coiling Grilles	ECG
