

TERMINAL HVAC ZONING DIAGRAM

Los Angeles World Airports

The Terminals HVAC Zoning Diagram is a map of each floor of each terminal in the LAX Central Terminal Area, displaying the location of each air handling unit, the year it was installed/replaced and the area(s) each unit serves with the year the distribution system was installed/replaced. Areas served by fan coil units serve are noted in a similar manner. The BAS Network Controllers (NAE's) are shown as the points of connection for terminal BAS.

This document is updated periodically. Please note the revision date in the title block on each page, as construction is on-going throughout the terminals. **To obtain a PDF copy of a drawing, please contact your LAWA Project Manager, specifying the requested drawing and a completed Data Waiver Form.**

Drawings included:

- Terminal 1 – Arrivals Level
- Terminal 1 – Ticketing Level
- Terminal 1 – Concourse Level
- Terminal 1 – Roof Level

- Terminal 2 – Arrivals Level
- Terminal 2 – Departure Level
- Terminal 2 – Concourse Level
- Terminal 2 – Mezzanine Level
- Terminal 2 – Roof Level

- Terminal 3 – Arrivals Level
- Terminal 3 – Departure Level
- Terminal 3 – Concourse Level
- Terminal 3 – Mezzanine Level
- Terminal 3 – Roof Level

- Terminal 4 – Arrival Level
- Terminal 4 – Ticketing Level
- Terminal 4 – Concourse Level
- Terminal 4 – Mezzanine Level
- Terminal 4 – Roof Level

- Terminal 5 – Arrival Level
- Terminal 5 – Ticketing/Moat Level
- Terminal 5 – Concourse Level
- Terminal 5 – Mezzanine Level

- Terminal 6 – Arrivals Level
- Terminal 6 – Ticketing/Ramp Level
- Terminal 6 – Concourse Level
- Terminal 6 – Mezzanine Level
- Terminal 6 – Roof Level

- Terminal 7 – Basement Level
